

## properties

**melting point:** 220oc

**boiling point:** 721.1oc at 760 mmhg

**water solubility:** 5 g/l (20 oc)

**density:** 1.56

**storage temp:** store in a cool, dry place. store in a tightly closed container.

**flash point:** 200oc

**stability:** stable. incompatible with strong oxidizing agents.

**appearance:** solid
