CERTIFICATE OF ANALYSIS

Factor price Dirithromycin CAS 62013-04-1

Dirithromycin is the second-generation erythromycin macrocyclic (fourteen-membered ring) lactone antibiotic, which is condensed into an oxazine ring at the C9 and C11 positions from 2-methoxyethoxyacetaldehyde and erythromycin. The structure is similar to erythromycin. Non-enzymatic hydrolysis in the body to erythromycin cyclic amine, which inhibits the process of bacterial transpeptidation by binding to the 50S ribosomal subunit of sensitive pathogenic microorganisms, inhibits protein synthesis, and is antibacterial

Specification

Product Name	Dirithromycin		
Cas No.	62013-04-1	Delivery time	7-10 days
EINECS No.	200-426-9	Storage	2-8 degrees Celsius
Appearance	white powder	MW	835.07
Shelf life	2 years	MF	C42H78N2O14
