Multipurpose Isothiocyanate Alanine/Lysine: Use as Solvatochromic IR Probes and in Site Specific Labeling/Ligation of Short Peptides

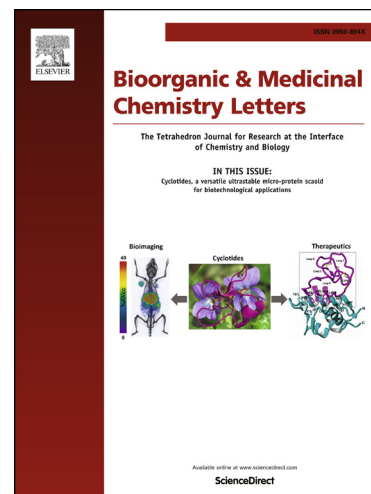

Subhendu Sekhar Bag, Suranjan De

PII: S0960-894X(18)30114-8
DOI: <https://doi.org/10.1016/j.bmcl.2018.02.021>
Reference: BMCL 25617

To appear in: *Bioorganic & Medicinal Chemistry Letters*

Received Date: 6 December 2017
Revised Date: 27 January 2018
Accepted Date: 10 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
