**Organic Carbonates: Efficient Extraction Solvents for the Synthesis of HMF in Aqueous Media with Cerium Phosphates as Catalysts**

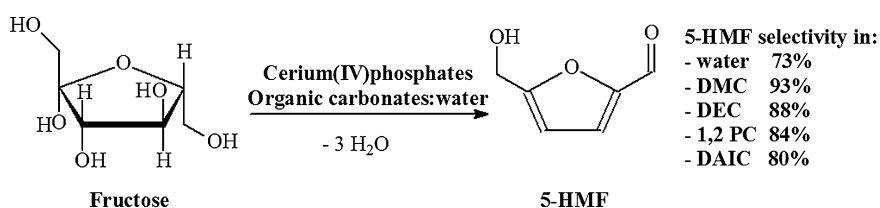

*ChemSusChem* **2016**, *9*, 118–125

DOI: 10.1002/cssc.201501181

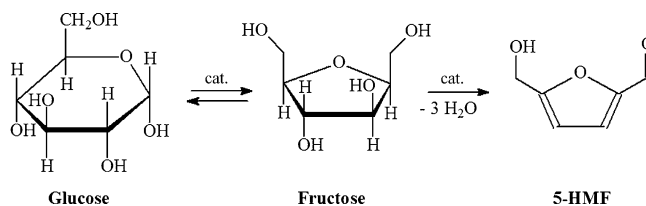

The anomeric hydroxyl group in fructose has been represented incorrectly in the Table of Content (TOC) image as well as in Scheme 2. The incorrect TOC image

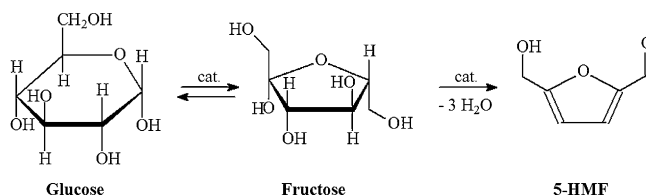

should have the following fructose structure

whereas the incorrect Scheme 2

should be corrected to

**Scheme 2:** Synthesis of 5-HMF starting from glucose isomerized into fructose.
