Technical Data Sheet

1. Product name

3,4-Ethylenedioxythiophene

CAS:126213-50-1

2. Technical data sheet

Item	Specifications
Appearance	Colorless or light yellow liquid
Assay (%≥)	99.5
Water content(%≤)	0.5
Pb(ppm≤)	100
Hg(ppm≤)	5
Cb(ppm≤)	5
Cr(ppm≤)	5

3. Usage

Mainly used in the synthesis of conductive polymer PEDOT, widely used in solid state capacitors, OLED display, solar cells, anti-static coating, high conductive coating, printed circuit board, thick film electroluminescence, organic thin film transistor and other modern electronic industry.

4. Package

25kg/drum.Package sizes can be customized.
