

CPVC RESIN (Extrusion grade)

1.Features

CPVC resin is chlorinated polyvinyl chloride resin. Appearance is white or light yellow powder, it is tasteless and nontoxic. CPVC is characterized by heat resistance which has been improved by 20 to 40 ° C without harming PVC's physical and chemical properties.

2.Main application

- Industrial heat-resistance pipe
- Hot and cold water pipe
- Fire Sprinkler pipe

3.Packing

25kg/650kg/950kg per bag Or designed according to customer's requirements

4.Storage and transportation

Product should be stored in dry and ventilated warehouse, the staking height is less than 10 bags, it should prevent sun and damp. Transport must be covered with tools, the product is non-dangerous goods.

5.5.Technical index

Item	SPECIFICATION
Content of chlorine %	67-69
Volatile content %	≤0.4
30 mesh sieve rate %	≥99
Specific gravity (g/cm ³)	1.45-1.58
Apparent Density (g/cm ³)	0.5-0.7
K VALULE	60-63
