

CERTIFICATE OF ANALYSIS

质检报告单

SAMPLE NAME: Resveratrol
 品名: 白藜芦醇
 CAS NO.: 501-36-0
 STRUCTURE:

化学结构:

BATCH NO.:
 批号:
 QUANTITY:
 重量:
 PRODUCTION DATE:
 生产日期:

ITEMS 检测项目	SPECIFICATION 规格	RESULTS 实测
APPEARANCE 外观	white or off white powder 白色或类白色粉末	off white powder 类白色粉末
MELTING POINT 熔点	258~263℃	260~263℃
ASSAY(HPLC) 含量(液相)	≥99%	99.87%
Loss on drying 干燥失重	≤0.5%	0.10%

Chemwill Asia co.,Ltd is one of the leading manufacturer in **CHINA**.

Our main production base is located in **Xuzhou industry park**. We produce a wide range of organics including Basic chemicals , Fine chemicals, Active pharmaceutical ingredients(APIs), Veterinary, Indole derivatives, Aromatics, Fluorine, Boronic acids, organocatalysts, chiral building blocks, **heterocyclic** compounds. We are certified both to the **ISO 9001** and **ISO 14001** Standards, have a safety management system in place.

Our R&D team masters **core technology** for **process-design** of target building block as well as **Tailor-made fine chemicals**. Our manufactory specialised in extreme temperature conditions (-100°C to +300°C), hydrogenations reaction under high pressure, **suzuki coupling reaction**, photochemical reaction, Mitsunobu reactions, enantioselective reactions and asymmetric synthesis.

Think Chemistry, Think ChemWill

Factory Plant Address:

High-Tech Industrial park, Chemical Economical Development Zone, Xuzhou, Jiangsu-Province, P.R.China

Shanghai office: (Export Department)

Address: 16FL., INDUSTRY & COMMERCIAL BUILDING, NO.45 YAN'AN ROAD(E), 200002, SHANGHAI, CHINA

Ms Mary Chi - Sales manager

Chemwill Asia co.,Ltd is one of the leading manufacturer in CHINA. Our main production base is located in Xuzhou industry park. We produce a wide range of organics including Active pharmaceutical ingredients(APIs), Veterinary, Indole derivatives, Aromatics, Fluorine, Boronic acids, organocatalysts, chiral building blocks, heterocyclic compounds. We are certified both to the ISO 9001 and ISO 14001 Standards, have a safety management system in place. Our R&D team masters core technology for process-design of target building block as well as Tailor-made fine chemicals. Our manufactory specialised in extreme temperature conditions (-100oC to +300oC), hydrogenations reaction under high pressure, suzuki coupling reaction, photochemical reaction, Mitsunobu reactions, enantioselective reactions and asymmetric synthesis. we specialize in developing innovative processes for the synthesis of a wide range of products. we also undertake custom synthesis and contract manufacturing. We have Strong quality control system: Strength of our

ethical commitment to quality control and quality assurance systems firmly based on ISO standard. QA and QC used in the whole process of raw material control, process control and finished product quality inspection. Our company has passed the ISO9001:2008. We have flexible payment terms with all of our clients: Various payment terms such as L/C, D/P, D/A and T/T will be accepted. We've been authorized the import&export qualification by the government and also has passed the "iso 9001-2008 quality management system" certification. Our company has strong R&D ability and production experience to provide the customers new APIs. We specialize in developing innovative processes for the synthesis of a wide range of products. We also undertake custom synthesis and contract manufacturing. We always stand on the quality of product as our life, develop in the direction of customers requirement and aim at creating greater value for customers. Innovation and honesty, we will make common development with the masses of customers at home and abroad hand in hand by our best service. The aim of QDSigma is a quality policy that "elements in the system all have been satisfied, personnel has been trained; every batch of material is checked, each procedure guarantees the quality; every bag of our products is top grade, service is thoughtful all the time, quality and reputation to increase market share and promote enterprise development. The quality, colors and forms of our products have reached a high level in related chemical industry, which relies on characteristic and advanced processing technology and it has gained a high and reliable reputation from customers at both quality and services. The aim of QDSigma is a quality policy that "elements in the system all have been satisfied, personnel has been trained; every batch of material is checked, each procedure guarantees the quality; every bag of our products is top grade, service is thoughtful all the time, quality and reputation to increase market share and promote enterprise development. The quality, colors and forms of our products have reached a high level in related chemical industry, which relies on characteristic and advanced processing technology and it has gained a high and reliable reputation from customers at both quality and services. Our concept, 1. client is first. 2. credibility is the most important. 3. quality control is our life. 4. great sense of responsibility. 5. we will be responsible for not only our products, our clients, also the society. The corporation's slogan: reliable, professional, cooperative and innovative. The corporation's philosophy: widely absorb different excellent views and ideas from all over the world. The corporation's destination: we will constantly strive to supply customers with new and high-tech products and will keep the leadership in the field. Think Chemistry, Think CHEMWill.
