

# SAFETY DATA SHEET

## 1. PRODUCT

### 1.1 Product identifiers

Name: Bakuchiol

CAS-No.: 10309-37-2

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Manufacture of substances

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

Not a hazardous substance or mixture.

### 2.2 GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

No data available

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Formula:  $C_{18}H_{24}O$

Molecular weight: 256.38 g/mol

CAS-No.: 10309-37-2

No components need to be disclosed according to the applicable regulations.

For the full text of the H-Statements mentioned in this Section, see Section 16.

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

| General advice                                                                                                  |
|-----------------------------------------------------------------------------------------------------------------|
| Consult a physician. Show this safety data sheet to the doctor in attendance.                                   |
| If inhaled                                                                                                      |
| If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. |
| In case of skin contact                                                                                         |
| Wash off with soap and plenty of water. Consult a physician.                                                    |
| In case of eye contact                                                                                          |
| Flush eyes with water as a precaution.                                                                          |
| If swallowed                                                                                                    |
| Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.             |

### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

### 4.2 Indication of any immediate medical attention and special treatment needed

No data available

## 5. FIREFIGHTING MEASURES

### 5.1 Extinguishing media

#### Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### 5.2 Special hazards arising from the substance or mixture

Carbon oxides

### 5.3 Advice for firefighters

Wear self-contained breathing apparatus for firefighting if necessary.

### 5.4 Further information

No data available

---

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapours, mist or gas.

For personal protection see section 8.

### 6.2 Environmental precautions

Do not let product enter drains.

### 6.3 Methods and materials for containment and cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

### 6.4 Reference to other sections

For disposal see section 13.

---

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

For precautions see section 2.2.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Store under inert gas.

### 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

#### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

### 8.2 Exposure controls

#### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of

workday.

### Personal protective equipment

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection               | Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).                                                                                                                                                                                                                                                                                                                 |
| Skin protection                   | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.                                                                                                                                |
| Body Protection                   | impervious clothing, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.                                                                                                                                                                                                                                                                        |
| Respiratory protection            | Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). |
| Control of environmental exposure | Do not let product enter drains.                                                                                                                                                                                                                                                                                                                                                                                                              |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

|                                              |                                                           |
|----------------------------------------------|-----------------------------------------------------------|
| Appearance                                   | Form: liquid<br>Colour: dark red                          |
| Odour                                        | No data available                                         |
| Odour Threshold                              | No data available                                         |
| pH                                           | No data available                                         |
| Melting point/freezing point                 | No data available                                         |
| Initial boiling point and boiling range      | 145 - 147 °C (293 - 297 °F)                               |
| Flash point                                  | No data available                                         |
| Evaporation rate                             | No data available                                         |
| Flammability (solid, gas)                    | No data available                                         |
| Upper/lower flammability or explosive limits | No data available                                         |
| Vapour pressure                              | 0.000000 hPa (0.000000 mmHg) at 25 °C (77 °F)             |
| Vapour density                               | No data available                                         |
| Relative density                             | 0.96 g/cm <sup>3</sup> at 20 °C (68 °F) at 8 hPa (6 mmHg) |
| Water solubility                             | insoluble                                                 |
| Partition coefficient: n-octanol/water       | log Pow: 6.54 at 25 °C (77 °F)                            |
| Auto-ignition temperature                    | No data available                                         |
| Decomposition temperature                    | No data available                                         |
| Viscosity                                    | No data available                                         |
| Explosive properties                         | No data available                                         |
| Oxidizing properties                         | No data available                                         |

### 9.2 Other safety information

Dissociation constant 10.1 at 25 °C (77 °F)

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

No data available

### 10.2 Chemical stability

Stable under recommended storage conditions.

### 10.3 Possibility of hazardous reactions

No data available

### 10.4 Conditions to avoid

No data available

## 10.5 Incompatible materials

Reducing agents, Oxidizing agents

## 10.6 Hazardous decomposition products

Other decomposition products - No data available

In the event of fire: see section 5

---

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Acute toxicity</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| LD50 Oral - Rat - 2,560.0 mg/kg<br>Inhalation: No data available<br>Dermal: No data available<br>LD50 Intraperitoneal - Mouse - 94 mg/kg<br>LD50 Intravenous - Mouse - 31 mg/kg                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Skin corrosion/irritation</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Skin - Human<br>Result: No skin irritation<br>(Patch Test 24 Hrs. on humans: No detectable irritation.)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## 12. ECOLOGICAL INFORMATION

### 12.1 Toxicity

No data available

### 12.2 Persistence and degradability

No data available

### 12.3 Bioaccumulative potential

No data available

### 12.4 Mobility in soil

No data available

### 12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

### 12.6 Other adverse effects

No data available

---

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

|                                                                            |
|----------------------------------------------------------------------------|
| <b>Product</b>                                                             |
| Offer surplus and non-recyclable solutions to a licensed disposal company. |
| <b>Contaminated packaging</b>                                              |
| Dispose of as unused product.                                              |

## 14. TRANSPORT INFORMATION

### DOT (US)

Not dangerous goods

### IMDG

Not dangerous goods

### IATA

Not dangerous goods

---

## 15. REGULATORY INFORMATION

### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

### SARA 311/312 Hazards

No SARA Hazards

### Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

### Pennsylvania Right To Know Components

| Component | CAS-No.    | Revision Date |
|-----------|------------|---------------|
| Bakuchiol | 10309-37-2 |               |

### New Jersey Right To Know Components

| Component | CAS-No.    | Revision Date |
|-----------|------------|---------------|
| Bakuchiol | 10309-37-2 |               |

### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

---

## 16. OTHER INFORMATION

### HMIS Rating

Health hazard: 1

Chronic Health Hazard:

Flammability: 0

Physical Hazard 0

### NFPA Rating

Health hazard: 0

Fire Hazard: 0

Reactivity Hazard: 0
