## 2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

According to Regulation (EC) No1272/2008 Acute aquatic toxicity (Category 1) Chronic aquatic toxicity (Category 1)

According to European Directive 67/548/EEC as amended.

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

N, R50/53 For the full text of the H-Statements mentioned in this Section, see Section 16.

4. FIRST AID MEASURES

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact Wash off with soap and plenty of water. Consult a physician.

If swallowed

5. FIRE-FIGHTING MEASURES

Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary.

environment must be avoided. Methods and materials for containment and cleaning up

containers for disposal.

Precautions for safe handling

7. HANDLING AND STORAGE

protection.

#### Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved

#### touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

standard EN 374 derived from it. Eye protection Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Hygiene measures

EMS-No: F-A, S-F

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

In case of eye contact

If inhaled

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

6. ACCIDENTAL RELEASE MEASURES Personal precautions Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas. Ensure

adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. **Environmental precautions** 

Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed

Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire

8. EXPOSURE CONTROLS/PERSONAL PROTECTION Personal protective equipment

Respiratory protection

# The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the

Skin and body protection Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at
