1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name Octanal

Classification of the substance or mixture

2. HAZARDS IDENTIFICATION

According to Regulation (EC) No1272/2008 Flammable liquids (Category 3)

Eye irritation (Category 2)

According to European Directive 67/548/EEC as amended. Flammable.

Label elements

Pictogram

Signal word Warning

Flammable liquid and vapour. H226

Hazard statement(s)

H319 Causes serious eye irritation.

P305 + P351 + P338

Precautionary statement(s) IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Hazard symbol(s) none

Octyl aldehyde

Caprylic aldehyde

R-phrase(s) R10 Flammable.

S-phrase(s) S16

Other hazards - none

Synonyms

Aldehyde C8

3. COMPOSITION/INFORMATION ON INGREDIENTS

Formula C8H16O 128,21 g/mol Molecular Weight

CAS-No. EC-No.

124-13-0 204-683-8 Flam. Liq. 3; Eye Irrit. 2; H226, H319 R 10

Keep away from sources of ignition - No smoking.

Classification

Concentration

For the full text of the H-Statements mentioned in this Section, see Section 16.

4. FIRST AID MEASURES General advice

In case of skin contact

If inhaled

Octanal

If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.

Wash off with soap and plenty of water. Consult a physician.

Consult a physician. Show this safety data sheet to the doctor in attendance.

In case of eye contact

If swallowed

Flush eyes with water as a precaution.

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Further information

Personal precautions

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary.

Avoid breathing vapors, mist or gas. Remove all sources of ignition. Beware of vapours accumulating to form

solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray;

6. ACCIDENTAL RELEASE MEASURES

Use water spray to cool unopened containers.

Environmental precautions Do not let product enter drains.

7. HANDLING AND STORAGE

13). Keep in suitable, closed containers for disposal.

explosive concentrations. Vapours can accumulate in low areas.

Methods and materials for containment and cleaning up

Precautions for safe handling Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Conditions for safe storage

Personal protective equipment

Respiratory protection

charge.

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to

clear, liquid

no data available

12 - 15 °C - lit.

no data available

no data available

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Hand protection

Handle with gloves. Eye protection Face shield and safety glasses Skin and body protection

Choose body protection according to the amount and concentration of the dangerous substance at the

engineering controls. If the respirator is the sole means of protection, use a full-face supplied air

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. 9. PHYSICAL AND CHEMICAL PROPERTIES

Hygiene measures

work place.

Conditions to avoid

Materials to avoid

Heat, flames and sparks.

Ignition temperature

Lower explosion limit

Colour light yellow Safety data

Boiling point 171 °C - lit. Flash point 52 °C - closed cup

Upper explosion limit no data available 1.133 hPa at 25 °C Vapour pressure 0,82 g/cm3 at 25 °C Density Water solubility no data available 10. STABILITY AND REACTIVITY

Strong oxidizing agents, Strong reducing agents, Strong bases

Hazardous decomposition products formed under fire conditions. - Carbon oxides

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as

May be harmful if swallowed.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly

May cause eye irritation.

May be harmful if inhaled. May cause respiratory tract irritation.

May be harmful if absorbed through skin. May cause skin irritation.

Stable under recommended storage conditions.

Acute toxicity no data available Skin corrosion/irritation

Hazardous decomposition products

11. TOXICOLOGICAL INFORMATION

Skin - rabbit - Mild skin irritation - 24 h

Serious eye damage/eye irritation

Eyes - rabbit - Mild eye irritation

no data available

Carcinogenicity

no data available

no data available

Eyes

investigated.

Toxicity

no data available

Aspiration hazard no data available

Respiratory or skin sensitization no data available Germ cell mutagenicity

probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity no data available Specific target organ toxicity - single exposure

Potential health effects Inhalation Ingestion Skin

Signs and Symptoms of Exposure

Additional Information RTECS: RG7780000 12. ECOLOGICAL INFORMATION

Specific target organ toxicity - repeated exposure

Bioaccumulative potential no data available Mobility in soil

PBT and vPvB assessment

Persistence and degradability

13. DISPOSAL CONSIDERATIONS **Product** This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Observe all federal, state, and local environmental regulations. Contact a licensed professional

Other adverse effects

waste disposal service to dispose of this material. **Contaminated packaging**

Dispose of as unused product.

14. TRANSPORT INFORMATION ADR/RID UN-Number: 1191 Class: 3

UN-Number: 1191 Class: 3

IMDG

Marine pollutant: No **IATA** UN-Number: 1191 Class: 3 Packing group: III

Proper shipping name: OCTYL ALDEHYDES

Proper shipping name: OCTYL ALDEHYDES

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

Eye Irrit. Eye irritation Flammable liquids

Proper shipping name: Octyl aldehydes 15. REGULATORY INFORMATION

For R&D use only. Not for drug, household or other uses.
