#### 2. HAZARDS IDENTIFICATION Classification of the substance or mixture

According to Regulation (EC) No1272/2008

Flammable liquids (Category 2) Acute toxicity, Oral (Category 4) Skin irritation (Category 2) Serious eye damage (Category 1)

Specific target organ toxicity - single exposure (Category 3) According to European Directive 67/548/EEC as amended.

Highly flammable. Harmful if swallowed. Irritating to respiratory system and skin. Risk of serious damage to eyes. Label elements

Highly flammable liquid and vapour.

Pictogram

Signal word

Danger

H225 H302

Hazard statement(s)

Harmful if swallowed. Causes skin irritation. H315 Causes serious eye damage. H318 H335 May cause respiratory irritation.

Precautionary statement(s) P210

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Avoid breathing dust/fume/gas/mist/vapours/spray. P261 P280

Wear protective gloves/eye protection/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove P305 + P351 + P338contact lenses, if present and easy to do. Continue rinsing. Hazard symbol(s)

Harmful Xn

Harmful if swallowed.

Irritating to respiratory system and skin.

Highly flammable

R-phrase(s) R11 Highly flammable.

R22

R37/38

F

Risk of serious damage to eyes. R41 S-phrase(s) S16 Keep away from sources of ignition - No smoking.

In case of contact with eyes, rinse immediately with plenty of water and S26 seek medical advice. S39 Wear eye/face protection.

Other hazards - none 3. COMPOSITION/INFORMATION ON INGREDIENTS

CAS-No.

Mercaptan C3 Synonyms n-Propylmercaptan

C3H8S Formula Molecular Weight 76,16 g/mol

**Propane-1-thiol** 107-03-9 203-455-5

EC-No.

STOT SE 3; H225, H302, H315, H318, H335 F, Xn, R11 - R22 - R37/38 -R41 For the full text of the H-Statements mentioned in this Section, see Section 16.

If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.

Classification

Flam. Liq. 2; Acute Tox. 4; Skin Irrit. 2; Eye Dam. 1;

Concentration

Wash off with soap and plenty of water. Consult a physician. In case of eye contact

Consult a physician. Show this safety data sheet to the doctor in attendance.

# Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

General advice

If inhaled

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water.

For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

**Further information** 

Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary.

Personal precautions Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form

explosive concentrations. Vapours can accumulate in low areas.

Methods and materials for containment and cleaning up

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist.

6. ACCIDENTAL RELEASE MEASURES

### earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

**Precautions for safe handling** 

**Conditions for safe storage** 

Hand protection

Handle with gloves.

standard EN 374 derived from it.

7. HANDLING AND STORAGE

charge.

**Environmental precautions** 

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Personal protective equipment **Respiratory protection** Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with

multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the

Choose body protection according to the amount and concentration of the dangerous substance at the

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous

Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic
