

## 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### 1.1 Product identifiers

Product name : ( - )-Alloaromadendrene

CAS-No. : 25246-27-9

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Manufacture of substances

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

Not a dangerous substance according to GHS.

This substance is not classified as dangerous according to Directive 67/548/EEC.

### 2.2 Label elements

Caution - substance not yet tested completely.

### 2.3 Other hazards - none

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Synonyms : ( - )-allo-Aromadendrene

Formula : C15H24

Molecular Weight : 204,35 g/mol

Component

Concentration

(-)-Alloaromadendrene

CAS-No. 25246-27-9

-

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

#### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration.

#### In case of skin contact

Wash off with soap and plenty of water.

#### In case of eye contact

Flush eyes with water as a precaution.

#### If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water.

### 4.2 Most important symptoms and effects, both acute and delayed

### 4.3 Indication of immediate medical attention and special treatment needed

no data available

## 5. FIRE-FIGHTING MEASURES

### 5.1 Extinguishing media

#### Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### 5.2 Special hazards arising from the substance or mixture

Carbon oxides

### 5.3 Precautions for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

### 5.4 Further information

no data available

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid breathing vapors, mist or gas.

### 6.2 Environmental precautions

Do not let product enter drains.

### 6.3 Methods and materials for containment and cleaning up

Keep in suitable, closed containers for disposal.

### 6.4 Reference to other sections

For disposal see section 13.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Normal measures for preventive fire protection.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Recommended storage temperature: 2 - 8 °C

### 7.3 Specific end uses

no data available

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

#### Components with workplace control parameters

### 8.2 Exposure controls

#### Appropriate engineering controls

General industrial hygiene practice.

#### Personal protective equipment

##### Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

##### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

##### Body Protection

Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

##### Respiratory protection

Respiratory protection not required. For nuisance exposures use type OV/AG (US) or type ABEK (EU EN 14387) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

a) Appearance Form: liquid, clear

Colour: colourless

b) Odour no data available

c) Odour Threshold no data available

d) pH no data available

e) Melting/freezing point no data available

f) Initial boiling point and boiling range 265 - 267 °C

g) Flash point 120,00 °C - closed cup

h) Evaporation rate no data available

i) Flammability (solid, gas) no data available

j) Upper/lower flammability or explosive limits no data available

k) Vapour pressure no data available

l) Vapour density no data available

m) Relative density 0,923 g/mL at 20 °C

n) Water solubility no data available

o) Partition coefficient: n-octanol/water no data available

p) Autoignition temperature no data available

q) Decomposition temperature no data available

r) Viscosity no data available

s) Explosive properties no data available

t) Oxidizing properties no data available

### 9.2 Other safety information

no data available

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

no data available

### 10.2 Chemical stability

no data available

### 10.3 Possibility of hazardous reactions

no data available

### 10.4 Conditions to avoid

no data available

### 10.5 Incompatible materials

Strong oxidizing agents

### 10.6 Hazardous decomposition products

Other decomposition products - no data available

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

No data available

#### Skin corrosion/irritation

No data available

#### Serious eye damage/eye irritation

No data available

#### Respiratory or skin sensitization

No data available

#### Germ cell mutagenicity

No data available

#### Carcinogenicity

No component of this product present at levels greater than or equal to 0,1% is identified as carcinogenic.

No component of this product present at levels greater than or equal to 0,1% is identified as a probable carcinogen by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as a possible carcinogen by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as a not classifiable as to its carcinogenicity for humans by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as a probably not carcinogenic to humans by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not genotoxic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not carcinogenic by IARC.

No component of this product present at levels greater than or equal to 0,1% is identified as not mutagenic by IARC.

No component of
