1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name 2-Ethyl-6-methylaniline

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

According to Regulation (EC) No1272/2008 Acute toxicity, Inhalation (Category 3) Acute toxicity, Oral (Category 4)

According to European Directive 67/548/EEC as amended. Harmful if swallowed.

General advice

Classification

Concentration

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

Flush eyes with water as a precaution. If swallowed

Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary. **Further information** Use water spray to cool unopened containers.

sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive

Personal precautions

concentrations. Vapours can accumulate in low areas. **Environmental precautions**

for disposal.

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Precautions for safe handling Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic

resealed and kept upright to prevent leakage. Store in cool place.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Methods and materials for containment and cleaning up

engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

Respiratory protection Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to

Hand protection

Personal protective equipment

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Eye protection Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Hygiene measures Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. 9. PHYSICAL AND CHEMICAL PROPERTIES

Materials to avoid

Remarks: Sense Organs and Special Senses (Nose, Eye, Ear, and Taste): Eye: Other. Lungs, Thorax, or Respiration: Dyspnea. Nutritional and Gross Metabolic: Weight loss or decreased weight gain. Skin corrosion/irritation

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as

Toxic if inhaled. May cause respiratory tract irritation.

Absorption into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer. To the best of our knowledge, the chemical, physical,

May be harmful if absorbed through skin. May cause skin irritation.

probable, possible or confirmed human carcinogen by IARC.

Harmful if swallowed.

May cause eye irritation.

Hazardous decomposition products formed under fire conditions. - Carbon oxides, nitrogen oxides (NOx)

Aspiration hazard no data available

Additional Information

Persistence and degradability

Bioaccumulative potential no data available Mobility in soil

This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed Contaminated packaging

6-Ethyl-o-toluidine

3-Ethyl-2-aminotoluene

For the full text of the H-Statements mentioned in this Section, see Section 16. 4. FIRST AID MEASURES

In case of skin contact Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

In case of eye contact

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

5. FIRE-FIGHTING MEASURES Suitable extinguishing media

For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

6. ACCIDENTAL RELEASE MEASURES Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all

7. HANDLING AND STORAGE

charge.

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers

Conditions for safe storage Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

standards such as NIOSH (US) or CEN (EU).

Skin and body protection Complete suit protecting against chemicals, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
