

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name : 3,4,5-Trimethoxyphenyl isothiocyanate

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

According to Regulation (EC) No1272/2008  
Acute toxicity, Inhalation (Category 4)  
Acute toxicity, Dermal (Category 4)  
Acute toxicity, Oral (Category 4)  
Skin irritation (Category 2)  
Eye irritation (Category 2)  
Respiratory sensitization (Category 1)  
Specific target organ toxicity - single exposure (Category 3)

According to European Directive 67/548/EEC as amended.  
Harmful by inhalation, in contact with skin and if swallowed. Irritating to eyes, respiratory system and skin. May cause sensitization by inhalation.

Label elements

|                            |                                                                                                                                  |

| Hazard statement(s)        |                                                                                                                                  |
| H302                       | Harmful if swallowed.                                                                                                            |
| H312                       | Harmful in contact with skin.                                                                                                    |
| H315                       | Causes skin irritation.                                                                                                          |
| H319                       | Causes serious eye irritation.                                                                                                   |
| H332                       | Harmful if inhaled.                                                                                                              |
| H334                       | May cause allergy or asthma symptoms or breathing difficulties if inhaled.                                                       |
| H335                       | May cause respiratory irritation.                                                                                                |
| Precautionary statement(s) |                                                                                                                                  |
| P261                       | Avoid breathing dust/fume/gas/mist/vapours/spray.                                                                                |
| P280                       | Wear protective gloves/protective clothing.                                                                                      |
| P305 + P351 + P338         | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P342 + P311                | If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.                                                  |
| Hazard symbol(s)           |                                                                                                                                  |
| Xn                         | Harmful                                                                                                                          |
| R-phrases(s)               |                                                                                                                                  |
| R20/21/22                  | Harmful by inhalation, in contact with skin and if swallowed.                                                                    |
| R36/37/38                  | Irritating to eyes, respiratory system and skin.                                                                                 |
| R42                        | May cause sensitization by inhalation.                                                                                           |
| S-phrases(s)               |                                                                                                                                  |
| S22                        | Do not breathe dust.                                                                                                             |
| S26                        | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.                                    |
| S36                        | Wear suitable protective clothing.                                                                                               |
| Other hazards              |                                                                                                                                  |
| Lachrymator.               |                                                                                                                                  |

3. COMPOSITION/INFORMATION ON INGREDIENTS

Formula : C10H11NO3S  
Molecular Weight : 225,26 g/mol

| CAS-No.                                             | EC-No.    | Classification                                                                                                                                   | Concentration |

| 3,4,5-Trimethoxyphenyl isothiocyanate<br>35967-24-9 | 252-820-5 | -                                                                                                                                                | -             |
|                                                     |           | Acute Tox. 4; Skin Irrit. 2; Eye Irrit. 2; Resp. Sens. 1; STOT SE 3; H302, H312, H315, H319, H332, H334, H335<br>Xn, R20/21/22 - R36/37/38 - R42 |               |

For the full text of the H-Statements mentioned in this Section, see Section 16.

4. FIRST AID MEASURES

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.

In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Ensure adequate ventilation.

Environmental precautions

Do not let product enter drains.

Methods and materials for containment and cleaning up

Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols.  
Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

Conditions for safe storage

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

Recommended storage temperature: 2 - 8 °C

Store under inert gas. Moisture sensitive.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protective equipment

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a dust mask type N95 (US) or type P1 (EN 143) respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Handle with gloves.

Eye protection

Face shield and safety glasses

Skin and body protection

Choose body protection according to the amount and concentration of the dangerous substance at the work place.

Hygiene measures

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

|        |       |
|--------|-------|
| Form   | solid |
| Colour | tan   |

Safety data

|                       |                   |
|-----------------------|-------------------|
| pH                    | no data available |
| Melting point         | 62 - 65 °C - lit. |
| Boiling point         | no data available |
| Flash point           | no data available |
| Ignition temperature  | no data available |
| Lower explosion limit | no data available |
| Upper explosion limit | no data available |
| Water solubility      | no data available |

10. STABILITY AND REACTIVITY

Chemical stability

Stable under recommended storage conditions.

Conditions to avoid

Heat. Avoid moisture.

Materials to avoid

Alcohols, Strong bases, Amines, acids, Strong oxidizing agents

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions. - Carbon oxides, nitrogen oxides (NOx), Sulphur oxides

11. TOXICOLOGICAL INFORMATION

Acute toxicity

no data available

Skin corrosion/irritation

no data available

Serious eye damage/eye irritation

no data available

Respiratory or skin sensitization

May cause allergic respiratory reaction.

Germ cell mutagenicity

no data available

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity

no data available

Specific target organ toxicity - single exposure

Inhalation - May cause respiratory irritation.

Specific target organ toxicity - repeated exposure

no data available

Aspiration hazard

no data available

Potential health effects

|            |                                                           |
|------------|-----------------------------------------------------------|
| Inhalation | Harmful if inhaled. Causes respiratory tract irritation.  |
| Ingestion  | Harmful if swallowed.                                     |
| Skin       | Harmful if absorbed through skin. Causes skin irritation. |
| Eyes       | Causes eye irritation.                                    |

Signs and Symptoms of Exposure

Cough, Shortness of breath, Headache, Nausea, Vomiting

Additional Information

RTECS: no data available

12. ECOLOGICAL INFORMATION

Toxicity

no data available

Persistence and degradability

no data available

Bioaccumulative potential

no data available

Mobility in soil

no data available

PBT and vPvB assessment

no data available

Other adverse effects

no data available

13. DISPOSAL CONSIDERATIONS

Product

Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.

Contaminated packaging

Dispose of as unused product.

14. TRANSPORT INFORMATION

ADR/RID

UN-Number: 3261 Class: 8 Packing group: II

Proper shipping name: CORROSIVE SOLID, ACIDIC, ORGANIC, N.O.S. (3,4,5-Trimethoxyphenyl isothiocyanate)

IMDG

UN-Number: 3261 Class: 8 Packing group: II EMS-No: F-A, S-B

Proper shipping name: CORROSIVE SOLID, ACIDIC, ORGANIC, N.O.S. (3,4,5-Trimethoxyphenyl isothiocyanate)

Marine pollutant: No

IATA

UN-Number: 3261 Class: 8 Packing group: II

Proper shipping name: Corrosive solid, acidic, organic, n.o.s. (3,4,5-Trimethoxyphenyl isothiocyanate)

15. REGULATORY INFORMATION

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

16. OTHER INFORMATION

Text of H-code(s) and R-phrases(s) mentioned in Section 3

|             |                                                                            |
|-------------|----------------------------------------------------------------------------|
| Acute Tox.  | Acute toxicity                                                             |
| Eye Irrit.  | Eye irritation                                                             |
| H302        | Harmful if swallowed.                                                      |
| H312        | Harmful in contact with skin.                                              |
| H315        | Causes skin irritation.                                                    |
| H319        | Causes serious eye irritation.                                             |
| H332        | Harmful if inhaled.                                                        |
| H334        | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H335        | May cause respiratory irritation.                                          |
| Resp. Sens. | Respiratory sensitization                                                  |
| Skin Irrit. | Skin irritation                                                            |
| Xn          | Harmful                                                                    |
| R20/21/22   | Harmful by inhalation, in contact with skin and if swallowed.              |
| R36/37/38   | Irritating to eyes, respiratory system and skin.                           |
| R42         | May cause sensitization by inhalation.                                     |
