Product name Methyl 2-furoate

Classification of the substance or mixture

2. HAZARDS IDENTIFICATION

According to Regulation (EC) No1272/2008 Acute toxicity, Dermal (Category 4) Acute toxicity, Oral (Category 3) Skin irritation (Category 2) Eye irritation (Category 2)

Specific target organ toxicity - single exposure (Category 3)

According to European Directive 67/548/EEC as amended. Irritating to eyes, respiratory system and skin.

physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Hazard symbol(s)

Danger

Harmful in contact with skin.

Xi **Irritant**

Methyl pyromucate

C6H6O3

R-phrase(s) R36/37/38 Irritating to eyes, respiratory system and skin.

S-phrase(s)

S26

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S36 Wear suitable protective clothing.

Other hazards Lachrymator.

3. COMPOSITION/INFORMATION ON INGREDIENTS Methyl furan-2-carboxylate Synonyms

Formula

CAS-No.

Molecular Weight 126,11 g/mol

EC-No.

Methyl 2-furoate Acute Tox. 4; Acute Tox. 3; 611-13-2 210-254-6

SE 3; H301, H312, H315, H319, H335 Xi, R36/37/38

Classification

Skin Irrit. 2; Eye Irrit. 2; STOT

Concentration

For the full text of the H-Statements mentioned in this Section, see Section 16. 4. FIRST AID MEASURES General advice

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

Consult a physician.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Consult a physician. Show this safety data sheet to the doctor in attendance.

If swallowed Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water.

If inhaled

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray;

Special protective equipment for fire-fighters Wear self contained breathing apparatus for fire fighting if necessary.

sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place

solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

Personal precautions Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all

6. ACCIDENTAL RELEASE MEASURES

Use water spray to cool unopened containers.

concentrations. Vapours can accumulate in low areas.

Methods and materials for containment and cleaning up

Further information

in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist.

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in cool place. 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Personal protective equipment

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves

multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

standards such as NIOSH (US) or CEN (EU). Hand protection

government standards such as NIOSH (US) or EN 166(EU).

after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the
