1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name 2-Nonanone

2. HAZARDS IDENTIFICATION

According to Regulation (EC) No1272/2008

Classification of the substance or mixture

Skin irritation (Category 2) Eye irritation (Category 2)

Specific target organ toxicity - single exposure (Category 3)

According to European Directive 67/548/EEC as amended. Irritating to eyes, respiratory system and skin.

Pictogram

Label elements

Signal word Warning

Hazard statement(s) H315

Causes skin irritation. H319 Causes serious eye irritation. H335

P261

May cause respiratory irritation. Precautionary statement(s) Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.

P305 + P351 + P338

Hazard symbol(s)

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Xi **Irritant**

R-phrase(s) R36/37/38

S36

Formula

Irritating to eyes, respiratory system and skin.

S-phrase(s) S26

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Other hazards - none

3. COMPOSITION/INFORMATION ON INGREDIENTS Synonyms

Molecular Weight 142,24 g/mol

CAS-No. EC-No. Classification Nonan-2-one 821-55-6 212-480-0 Skin Irrit. 2; Eye Irrit. 2; STOT SE 3; H315, H319, H335

Xi, R36/37/38 For the full text of the H-Statements mentioned in this Section, see Section 16.

Concentration

Wear suitable protective clothing.

Heptyl methyl ketone

C9H18O

4. FIRST AID MEASURES

If inhaled

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. In case of skin contact

In case of eye contact

Wash off with soap and plenty of water. Consult a physician.

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

If swallowed

5. FIRE-FIGHTING MEASURES Suitable extinguishing media For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires,

apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray;

solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water. Special protective equipment for fire-fighters

Further information Use water spray to cool unopened containers.

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation.

Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers

explosive concentrations. Vapours can accumulate in low areas.

Personal precautions

6. ACCIDENTAL RELEASE MEASURES

Environmental precautions Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up

Wear self contained breathing apparatus for fire fighting if necessary.

for disposal. 7. HANDLING AND STORAGE

Keep container tightly closed in a dry and well-ventilated place. Store in cool place.

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with

multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

standards such as NIOSH (US) or CEN (EU).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
