

Joint IBDG/SBIC MEETING

Metals in Biology:

from Homeostasis to Medical Applications

To be held at The "Université Catholique de Louvain-la-Neuve",
Louvain-la-Neuve, Belgium, 16th May-19th May 1996

Thursday 16th May 1996

- 17.00 Calcium Homeostasis
Professor **E. Carafoli**, Zürich, Switzerland
- 18.00 WELCOME RECEPTION

Friday 17th May 1996

- 09.00 Iron Homeostasis in Bacteria
Professor **V Braun**, Tübingen, Germany
- 10.00 COFFEE and Poster Viewing
- 11.00 Translational Regulation of Iron Metabolism in Animal Cells
Dr **L Kuhn**, Epalinges, Switzerland
- 13.00 LUNCH
- 14.00 Copper Homeostasis in Bacteria
Professor **NL Brown**, Birmingham, UK
- 15.00 Copper Homeostasis in Man
Professor **HJ McArdle**
- 16.00 Poster Viewing
- 17.00 Poster Presentations
- 18.00 Iron and Copper Interactions
Speaker to be confirmed

Saturday 18th May 1996

- 09.00 Contrast Agents in MRI
Professor **I Bertini**, Firenze, Italy
- 10.00 COFFEE
- 10.30 Long-lived Platinum-DNA Monoadducts: Stategy for DNA- Protein Cross-linking
Dr **J-C Chottard**, Paris, France
- 11.30 Young scientist Presentation
- 12.30 LUNCH
- 14.00 Entitumor Metalloenes - New Experimental and Clinical Results
Professor **P. Köpf-Maier**, Berlin, Germany
- 15.00 COFFEE and Poster Viewing
- 16.00 Poster Presentations
- 17.00 Metallodrugs: Transport and Metabolism
Professor **P Sadler**, London, Britain
- 19.00 CONFERENCE DINNER
